

ALBION®

FOR IMMEDIATE RELEASE
ALBION INDUSTRIES, INC.

NOW ALBION IS THE EXCLUSIVE NORTH AMERICAN MANUFACTURER OF CASTER WHEELS MADE WITH VULKOLLAN® POLYURETHANE RAW MATERIALS

Albion, Michigan — Albion Industries, Inc, the global leader in caster and wheel manufacturing, is pleased to announce an agreement with Bayer MaterialScience that makes Albion the exclusive North American manufacturer of caster wheels made with Vulkollan® polyurethane raw materials.

“This means the highest quality polyurethane in the world will be used to manufactured caster wheels domestically,” noted Bill Winslow, company president. “A complete line of Vulkollan® Polyurethane wheels is ready for next day shipping under Albion’s Caster Express Program”, remarked Mike Thorne, Vice-President of Marketing and Sales. “No more waiting for overseas container shipments. No more outrageous transportation costs tagged on to every wheel. No more out-of-stock delivery issues,” he continued.
