Caster Industry News

COLSON ASSOCIATES ACQUIRES RHOMBUS

Rhombus Casters, a long time partner of Conveyer & Caster – Equipment for Industry, was acquired by the Colson Associates family of companies on April, 17 2009.

Colson Associates, the parent company of many of our valued partners, including Albion, Faultless, MedCaster, and Shepherd, is the largest manufacturer of casters and wheels worldwide. The addition of Rhombus Casters to this family is a great development in the industry.

Rhombus Casters, a long standing premier manufacturer of casters and wheels, was founded in 1899. The firm is the oldest manufacturer of casters and wheels in Europe. Rhombus specializes in medical and institutional style casters.

Conveyer & Caster – Equipment for Industry's long standing relationship with Rhombus will continue with the help of MedCaster. MedCaster is the North American sales and marketing partner of Rhombus Casters.

This merger will provide our customers greater access to leading European caster designs and styles. We foresee in the coming months that Rhombus product will be integrated into our existing lines of casters.

For more information, contact Conveyer & Caster - Equipment for Industry at 800.777.0600.
