FOR IMMEDIATE RELEASE

## HONORED A SECOND YEAR BY WEATHERHEAD 100

December 7, 2009

CLEVELAND, OH – Conveyer & Caster – Equipment for Industry, a third-generation, family-owned material handling distributor was named to the Weatherhead 100 as one of the fastest growing companies in Northeast Ohio for 2008. “To be honored twice with this distinction, it’s amazing,” said Jeff Stohr, President of Conveyer & Caster – Equipment for Industry. He went on to add, “Our customers and suppliers were critical in helping us achieve this level of growth. But without the help of our dedicated staff, this would never have been possible.” The Weatherhead 100 is a joint project of the Weatherhead School of Management at Case Western Reserve University and the Council of Smaller Enterprises (COSE), published in Inside Business. It recognizes the one-hundred fastest growing companies in Northeast Ohio.

“2008 was a tough year, we had our ups and downs,” said Trevor Stohr, Vice President of Operations at Conveyer & Caster – Equipment for Industry, “I’m glad to see we did this well, it’s a nice reminder, especially this year.”

In 2008 Conveyer & Caster – Equipment for Industry grew its operation by bringing Anderson Wood & Metal Works of Erie, PA into the organization, now known as the Anderson Wood & Metal Division. This acquisition strategically added strength to the organization. Anderson’s specialization in heavy duty equipment along with their presence in Northwest Pennsylvania, have bolstered Conveyer & Caster – Equipment for Industry’s strategic position.
